

REED

THE RIGHT SOURCE THE RIGHT SOLUTIONS

DUROMETER

TECHNICAL DATA

FEATURES

- Digital durometer for Shore A hardness testing
- Designed to measure the penetration hardness of rubber, elastomers and other rubber like substances such as neoprene, silicone and vinyl
- Meets DIN 53505, ASTM D2240, ISO 7619 and JISK 7215
- Pocket-sized model with integrated probe
- RS232 serial interface
- Measures maximum value
- Calculates average value
- Push button zero calibration
- Bright, clear, 4-digit, 10mm high LCD readout
- Auto power off conserves battery life

SPECIFICATIONS

Measuring Range: 0 to 90 HA

Resolution: 0.1 HA

Deviation: ± 1 HA

Power Supply: 4 x 1.5V "AAA" batteries

Dimensions: 162 x 65 x 38mm

Weight: 173 g

ORDERING INFORMATION

HT-6510A....."A" Scale Durometer
VW-USB..... USB/RS232 Cable & Software
VW3USB11ARS232 to USB Converter Cable
CERTIDU1Accredited Calibration Certificate
