

REED

Model R2000 Digital Stem Thermometer

Features

- °F to °C switchable
- Battery Included (LR44, 1.5V)
- Water resistant
- Five year warranty
- Hand wash only

Specifications

- Temperature Range: -40 to 450°F (-40 to 230°C)
- Resolution: 0.1°F/°C
- Response Time: 8 seconds, with 2-second updates
- Accuracy: $\pm 1.0^{\circ}\text{F}$: 0 to 230°F; $\pm 3.6^{\circ}\text{F}$: $< 0^{\circ}\text{F}$ & $> 230^{\circ}\text{F}$

Calibration

Once ice slurry is complete, if necessary, to change the calibration use a screwdriver, slowly turn the calibration screw (cal.) to the left to decrease the temperature reading or to the right to increase the temperature reading, until the display reads 32°F / 0°C.

Replacing the battery

Use the same screwdriver to pry battery compartment door loose.
