

Haier Biomedical
Intelligent Protection of Life Science

Ultra Low Temperature RFID Freezer

DW-86L728BPSTR

**Cryo RFID identification
technology**

Dual refrigeration system

**Intelligent sample
management system**

The Haier Biomedical ULT RFID freezer offers enhanced protection for high-value samples like genetic material, biosamples, and tissue. With quick freezing, secure access, and comprehensive inventory management features, it ensures product integrity and visibility while eliminating manual processes. Ideal for research facilities and laboratories seeking efficient sample storage solutions.

Product Features

**Enhanced Efficiency**

Effortlessly locate and inventory sample tubes without the need to open the door. The system automatically records the exact position of each sample in real-time, streamlining manual processes.

**Rapid Inventory Management**

Save time and effort with a single click inventory feature that completes within 5 seconds. Say goodbye to errors and delays.

**Precision Identification**

Achieve accurate and swift recognition with a 3-second automatic identification process for sample information and location. This system excels at high-density batch reading tasks.

**Enhanced Safety Measures**

The dual refrigeration system features double independent hydrocarbon refrigeration units, both capable of maintaining -80°C. This design not only ensures the safety of stored samples but also enhances reliability.

Innovative Design Features

**Intuitive Monitoring Software**

Benefit from a tailored sample management software that allows real-time tracking and monitoring of operational status, ensuring seamless workflow oversight.

**Comprehensive Security Integration**

Utilize the four-code integration tube system, combining RFID tags, bottom QR codes, tube barcodes, and tube digital codes for heightened security and reliability in sample management.

**Streamlined User Interface**

Navigate effortlessly through operations with a 15.6-inch LCD touch screen that provides an intuitive display of vital information. Accessing and managing tasks is made simple and efficient.

**Free Sample Placement**

Samples can be placed freely without the need to be stored in specific locations, and the relevant sample information will be updated automatically.

Ultra Low Temperature RFID Freezer

Product Parts

15.6-inch LCD touch screen coupled with BIMS system, which is convenient for sample inventory

Indicator lights display and monitor operating status

The reader is placed on the left side of the door for easy sample identification and inventory

Storage area, which is convenient for users to store gloves and other consumables

Sliding-drawer freezer rack for convenient access
