Maximum Sample Security

The newly upgraded dual refrigeration system features two fully independent systems for robust sample protection. In the event of an unexpected failure in one system, the other maintains the cabinet at -80°C , ensuring uninterrupted, secure storage for high-value samples.

Low Environmental Impact

- Naturally occurring hydrocarbon (HC) refrigerants have an extremely low environmental impact.
- Non-toxic, eco-friendly insulation delivers outstanding sustainability, zero ozone depletion, and a significantly reduced carbon footprint, offering a truly green solution.

Enhanced Performance

Optimized dual refrigeration system and redesigned cabinet deliver industry-leading performance
